Education

Dr. A.P.J Abdul Kalam Technical University (AKTU), India

2021 – 2025

H. R. Institute of Technology

Ghaziabad, Uttar Pradesh

Bachelor of Technology in Computer Science Engineering

K. M. S. V. Mandir Kakore Bulandshshr, (CBSE)

Bulandshshr, Uttar Pradesh

12th (77.6%)

2020 - 2021

10th (80.8%)

2018 - 2019

Technical Skills

Languages And Web Technologies: C++, C, Java, HTML, CSS, JavaScript, Python, TypeScript

Frameworks And Tools: ReactJS, NodeJS, ExpressJS, TailwindCSS, MongoDB, MySQL, Git, Panda, Numpy

Core Competencies: Data Structures, System Design, OOPS, API Development, Agile/Scrum, UI/UX Design

Training

Q Spider

July 2024 – Nov 2024

Mern stack web development

Noida sec 3, UP

- Completed intensive training on MongoDB, Express.js, React, and Node.js, building scalable full-stack web applications.
- Developed and deployed CRUD-based mini-projects to reinforce backend–frontend integration and RESTful API consumption.
- Collaborated in code reviews and agile sprints, improving debugging speed and code quality by 40%.

Anudip Foundation

March 2025 – April 2025

Data Analyst

- Trained in data analysis and visualization tools including Excel, Power BI, and Tableau to present insights from real-world datasets.
- Created interactive dashboards to track trends and KPIs, improving stakeholder understanding of data by 60%.
- Participated in live case studies and peer presentations, strengthening analytical communication skills.

Projects

GreenCart | React Native, Firebase

May 2025

- Developed a cross-platform web app reducing app loading time by **30%** through optimized API integration.
- E Designed a scalable shopping platform with modular components and intuitive UI, resulting in a 25% increase in user satisfaction and retention.

Personal Portfolio | React Native, Render

January 2024

- Developed a cross-platform personal portfolio app using React Native, improving performance and responsiveness across iOS and Android.
- Integrated dynamic project showcases and animations, boosting user engagement and session time by 30%.

Academic and Extracurricular Achievements

- * **Mentor, Tech Vaganza 2024:** Guided participants on best coding practices for large-scale open-source projects.
- * **President, Spartan Coding Club (2023–2024):** Led workshops and hackathons, engaging **100+ participants**.
- * **Pickle.ai ML Summer School 2025:** Selected for advanced machine learning training.
- * **President, Launch Ed Campus Leader (2023–2024):** Conducted technical events and coding competitions.

Positions of Responsibility

Spartan Coding Club DGI

August 2023 – August 2024

President

- * Led the club's initiatives and activities, promoting a collaborative environment for coding enthusiasts.
- * Organized and managed coding competitions, workshops, and hackathons to enhance member engagement and skill development.
- * Provided guidance and support to junior members, facilitating their growth in coding and related technologies.
